

We are organising a CallConnect Roadshow every Wednesday in August and would like to call into your village on 28th August 2019.

CallConnect is a bookable bus service designed for rural areas where there is either no scheduled bus service, or it compliments existing services. To make sure that our Rutland residents are aware of the service we are bringing one of the buses along and we will be on hand to answer any questions and to help with initial registration so that people are set up and ready to use it if required.

I will send out a list of times when we will be in your village.
