Sirs

I am writing to our Parish Council because of the disquiet felt by many villagers about how Brian Lester has been put into a position of having to resign/disqualified from The Council.

Putting aside the chronology of resignation versus disqualification I would like to know why any disqualifying process was thought to be necessary and appropriate.

I am sure the Council will consider they have technical reasons and that their actions had been discussed. I also believe that, in common with other Councils, their actions should be measured and have regard to circumstances. It does our Council no credit to hide behind technicalities and patronising offers of re co-opting while actually doing very little or nothing to accommodate Brian's difficulties.

Our Council has behaved in an inconsiderate, high handed and particularly unkind manner. The whole matter was unnecessary.

It appears to me, and others, that this matter shows the Council and its individual members in a poor, unfeeling light. Their behaviour falling well below standards that we might expect.
